Summary

Innovative and detail-driven Full Stack Web Developer with skills in designing, developing, and deploying web applications that are scalable. Experienced in both front-end (HTML, CSS, JavaScript, React, and Angular) and back-end (Node.js, Express, Python, and PHP) development, as well as knowledgeable about databases (MySQL, MongoDB, PostgreSQL). Experienced in developing systems that are secure, user-friendly, and optimal, focusing on performance and responsive design.

Experienced in API integration, cloud deployment (AWS, Firebase) and version control (Git/Github).

Passionate about UI/UX perfection, ensuring seamless user experiences with modern frameworks.

Solid background in security procedures, automatic backups, and error-proof deployment processes.

Experience in working in Agile environments, debugging tough bugs in complex systems, and delivering high-quality enterprise solutions on tight deadlines.

Objective: Applying technical skills and creative problem solving in developing quality and scalable digital products to improve user engagement and business growth.
